PROFILE

Data Analyst-focused Computer Science undergraduate (B.Tech, 2027) with hands-on experience in **Python, SQL, Excel, Power BI, and Tableau**, along with web development skills in **HTML, CSS, and JavaScript**. Built projects in sales analysis, dashboard development, and data cleaning, with strong skills in turning raw data into clear business insights. Seeking a Data Analyst internship or entry-level role.

EDUCATION

B.Tech in Computer Science and Engineering

2023 – 2027 | Greater Noida

Galgotias College of Engineering and Technology

Affiliated with Dr. A.P.J. Abdul Kalam Technical University

Senior Secondary (Class XII), Delhi Public School Ghaziabad Vasundhara

SKILLS

Technical Skills

- Programming Languages: Python, C++, JavaScript
- Web Technologies: HTML, CSS
- Databases: SQL, MySQL, Microsoft SQL Server
- Data & Analytics Tools: Microsoft Excel, Power BI
- Developer Tools: Git, GitHub, Streamlit
- Core Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Data Cleaning, Data Visualization, Dashboard Development

PROJECTS

Pizza Sales Analysis | SQL

- Analyzed 21,350 orders (~\$818K revenue) using SQL joins, subqueries, and window functions (RANK, cumulative SUM) to calculate KPIs and rank top pizzas by category.
- Identified best-sellers (Classic Deluxe by quantity, Thai Chicken by revenue), peak order hours (12–1 PM, 5–6 PM), and category-wise revenue share.

Bank Management System | Python, HTML, CSS

- Developed a banking application to manage customer accounts, including account creation, deposits, withdrawals, account details, and account deletion.
- Implemented Object-Oriented Programming (OOP) concepts and designed a clean, user-friendly interface using HTML and CSS integrated with the Python backend.
- Designed the system with input validation and structured data management to ensure efficient and reliable banking operations.

AI Resume Scanner | Python, Streamlit

- Developed an AI-powered application to analyze resumes and compare them with job descriptions.
- Implemented text extraction and keyword matching techniques to identify missing skills and calculate resume-job similarity scores.
- Built an interactive user interface using Streamlit for resume upload and instant feedback generation.

CERTIFICATES

- **Deloitte Australia Data Analytics Job Simulation (Forage):** Built Tableau dashboards and used Excel to analyze and classify business data.
- **IBM SQL and Relational Databases 101:** Learned relational database concepts, SQL queries, filtering, sorting, joins, and database design.
- **IBM Python 101 for Data Science:** Python fundamentals, data structures, functions & data science basics.
- **Simplilearn – Introduction to SQL:** Learned SQL fundamentals, database querying, joins, and aggregate functions.
- **30 Days Python Micro Course:** Python fundamentals, data structures, functions & OOP
- **Power Query in Excel:** Covered data cleaning and transformation techniques using Power Query.
